

Teachers meeting nr 1 in Kramfors, 080310

1. Log-book – short presentation of the meeting. The students present the meeting in words and photos. Important to do it the students way, by students for students. We all agreed in doing this. The host school are responsible for having this done.
2. Web-site – teachers page. “A family photo”. A discussion if there is an agreement about putting a "family photo", from each school, of the teachers involved in the project and a short description of the “teachers group”: subjects they teach, All agree about this.
3. Students page. The same as above should be done about the students involved.
4. Newsletters. There has been a problem printing some letters from Sweden and Turkey. Some possible “problem-letters” should be avoided to make it easier to print. All power-point presentations are needed to be as easy as possible. The power-point presentation from Turkey is still to be delivered.
5. Multilingual dictionary. A dictionary made by students for students. All students prepare and bring 10-15 phrases in English to be translated into each language during the meetings. The school from Vigo will collect the phrases after every meeting and document them. Then every school can use the dictionary the way they want (role-play, cross-word...) Time for the students making this will be added to the program in Istanbul.
6. Fairy tales: They are an activity wrote in the application form. Timetable of the fairy tales. In May the first fairy-tale should be sent in for the web-page. The second in December.
7. Preparation for Istanbul. Four days organised. The programme is handed out in the meeting. All information important for the host (for example if anyone is vegetarian) should be sent by mail. If students from visiting countries want to present a song, dance or something else, and equipment needed, they inform Istanbul ahead.
