

Diversity around us
Meeting in Vienna, 10-15 December 2007
Conclusions

During these days, teachers from all school partners met in Vienna. The following are the final conclusions:

a) Time schedule and topics for next meetings will be as follows:

Meeting	Country	Topic	Travel days:	Meeting
2.	Sweden	Taking care of nature	9. and 14.3.08	10 – 13th of March
3.	Turkey	Dances and Music	13. and 18.4.08	14. – 17th of April
4.	Greece		Oct/Nov 08	
5.	Palma		February 09	
6.	Vigo		May/June 2009	

b) Main tasks for the next meeting in Sweden (“Taking care of nature”):

- Energy saving methods will be discussed.
- A questionnaire created by the swedish team will be filled in.
- A paper mill will be visited.
- Each team will have a maximum of 20 minutes to present either a typical national park or an environmental problem from its country. If a school has a project related to these topics, can do an additional presentation.
- Each student will bring a picture of himself in his favourite surrounding.

c) Communication via Spacebook will be set up for students.

d) Teachers will register on Moodle.

e) Spain (Vigo) will do the web site, instead of Turkey. This web site will have links to moodle, spacebook and the fotoserver. Also, the web site will host the newsletters.

f) A newsletter will be written each two months (3 newsletters for this school year).

g) At least one teacher and **one student** from each country must be in each meeting. It is necessary to participate in all sessions of teachers’ meetings and take into account all the questions discussed.

h) The inquiry will be simplified. There will be only 10 questions about general aspects with a maximum of three answers. Simplification deadline: 31st of December.

Recommendations: coordinator should attend the meetings. It would be better if one teacher from the last meeting attends the following one to ensure continuity of the project.
